COPY OF LETTER FROM JAPAN:-

WE ARE PLEASED TO ANNOUNCE THE ARRIVAL OF THE NEW 16 BIT FULLY MSX COMPATABLE PANASONIC FS-A1ST MSX R TURBO THE FIRST OF THE NEW MSX COMPUTER GENERATION TO BE RELEASED HERE IN JAPAN.

THE HEART OF IT IS THE SENSATIONAL NEW R800 PROCESSOR, WHICH IS APPROX 5 TIMES FASTER THAN THE Z80A. THE RAM MEMORY HAS BEEN EXTENDED TO 256K, WITH MSXDOS 2 BUILT IN AT NO EXTRA COST. THE SOUND HAS ALSO BEEN IMPROVED BY THE ADDITION OF PCM FUNCTIONS.

THIS MSX SUPER COMPUTER WILL BE AVAILABLE FROM NOVEMBER 1990.

EDS COMMENTS:-

THIS CERTAINLY SEEMS TO BE A "SUPER COMPUTER", IN FACT IT IS 3 COMPUTERS ROLLED INTO ONE, MSX 1, MSX 2, AND POSSIBLY MSX 3, ESPECIALLY WITH MSXDOS 2 BUILT IN WHICH COSTS \$400.00 ON ITS OWN.

THE PRICE IS REASONABLE TOO AT 109,750 YEN WHICH INCLUDES INSURANCE AND AIRFREIGHT FROM JAPAN. DEPENDING ON THE RATE OF EXCHANGE AT THE PARTICULAR TIME THIS ROUGHLY CONVERTS TO \$AUST 1097.00, NOT FORGETTING THE 22%-25% CUSTOMS DUTY SLUG TO BE ADDED ON TOP, WHICH WOULD MAKE IT AROUND \$AUST 1350.00, STILL A CHEAP COMPUTER WHEN COMPARED WITH WHATS ON THE MARKET TODAY.

THE PITY IS THAT IT IS VERY UNLIKELY THAT PANASONIC WILL RELEASE A MODLE FOR SALE IN AUSSIE, SO WE WILL HAVE TO TRY AND CONVINCE ONE OF OUR MORE AFFLUENT LOCAL MEMBERS TO PURCHASE ONE, TO ENABLE US TO TRY OUT SOME OF THE PROGRAMS ON THE 90 DISCS WE HAVE SUITABLE FOR THIS MACHINE.

[illegible]

A TIP FOR MSX DISC USERS

THERE MAY BE SOME DISC USERS NOT AWARE OF THE FOLLOWING TIP:-
IF YOU HOLD DOWN THE CONTROL KEY (CTRL KEY) WHILE SWITCHING
THE COMPUTER ON UNTIL YOU HEAR A BEEP, YOU WILL PROVIDE MORE
MEMORY WHICH IS NEEDED TO RUN SOME OF THE LARGER PROGRAMS, IN
FACT A LOT OF THE PROGRAMS ADVISE YOU ON SCREEN TO DO THIS,
THOUGH I BELIEVE IT IS A GOOD HABIT TO GET INTO EVERY TIME
YOU START UP THE COMPUTER IN MSX-DOS.

WANTED TO BUY

IF ANYONE OUT THERE HAS A SPARE 80 COLUM CARD AND AN RS232
INTERFACE. CONTACT MICHAEL ON (07)8866528

SECTOR ALPHA

THIS IS ANOTHER GOOD MACHINE CODE PROGRAMME THAT I FOUND VERY ENTERTAINING. ONE DISAPPOINTMENT I FOUND WITH THIS IS THAT YOU CAN ONLY USE ONE JOYSTICK PORT WHEN PLAYING DOUBLES, OTHER THAN THAT I THINK ITS RATHER A GOOD GAME.

FLIPPER SLIPPER

THIS IS A RATHER DISAPPOINTING EFFORT AT A PIN BALL GAME, YES THATS RIGHT THIS GAME LOOKS LIKE AN ATTEMPT TO SIMULATE A PIN BALL MACHINE. BUT EVEN WITH ALL THE GLITZ ITS STILL A DISAPPOINTMENT. IF YOU'VE HEARD GOOD THINGS ABOUT THIS GAME DO'NT BELIEVE IT. THIS IS A GAME THAT MADE IT TO THE HIGH SCORES TABLE IN THE OLD NEWS LETTER, BUT WHY ITS NOT ALL THAT GOOD. THE MOST EXCITEMENT YOU'LL GET OUT OF THIS GAME IS WHEN YOU UNPACK IT FOR THE FIRST TIME, FOR ALL YOU POTENTIAL BUYERS I'D FORGET ABOUT THIS GAME ALLTOGETHER. IF YOU HAVE CHILDREN AGED 8 TO 12 THEY MIGHT GET SOME ENJOYMENT OUT OF IT, BUT FOR THE MORE MATURE AUDIENCE STICK TO THE HITCH HIKERS GUIDE TO THE GALIXY. OVER ME, FOR ALL YOU POTENTIAL BUYERS I'D FORGET ABOUT THIS GAME ALLTOGETHER. IF YOU HAVE CHILDREN AGED 8 TO 12 THEY MIGHT GET SOME ENJOYMENT OUT OF IT, BUT FOR THE MORE MATURE AUDIENCE STICK TO THE HITCH HIKERS GUIDE TO THE GALIXY. OVER A LITTLE HARD TO PLAY AT FIRST BUT WITH A LOT OF PATIENCE AND PERSERVEIRENCE YOU SHOULD AT LEAST LIVE THROUGHT THE DISTRUCTION OF YOUR HOUSE. THE LONG TERM PLAYABILITY OF THIS GAME GIVES YOU THE CHANCE TO CONTINUE YOUR ADVENTURE ANOTHER DAY.

ZORK: THE UNDERGROUND EMPIRE

THIS IS IN NO WAY A ONE HOUR ADVENTURE, IF YOU SIT DOWN TO THIS GAME YOU UNDERTAKE A MIGHTY TASK FOR THE GOOD OF HUMAN KIND. IF YOUR LIKE ME AND YOUR AN ADVENTURE FREAK YOU'LL REALLY GET INTO THIS GAME, ITS NOT THE HITCH HIKERS GUIDE TO THE GALAXY BUT ITS STILL AN ADVENTURE OF A LIFE TIME. THIS TOO HAS LONG TERM PLAYABILITY.

TETRA HORRER

THIS ISANT THE BEST GAME I'VE COME ACROSS BUT THE 3-D TEMPLE MAKES UP FOR MOST OF IT. ITS FILLED WITH GHOSTS, GOBLINS AND BIG BOUNCY BALLS. THE START OF THIS GAME PUTS YOU OFF BUT IF YOU PERSEVERE YOU SHOULD BE IMPRESSED BY THE GRAPHICS.

OLD MAC FARMER

A GAME WITH A TWIST, THIS IS A PACK MAN PROGRAMME WITH A DIFFERENCE. THERES NO PACK MAN INSTEAD THERES A CHINESE MAN PROTECTING HIS RICE FIELD. HES ALWAYS ON THE GO FROM OVER-SIZED BUGS AND DIVE BOMBING BIRDS. IF YOU WANT A FAST ACTION GAME DO'NT BOTHER EVEN TO LOOK AT THIS, BUT IF YOU WANT A SLOW PACED PROGRAMME WITH VERY LITTLE ACTION THEN THIS IS THE ONE FOR YOU.

PAGE TWO OF REVIEWS

MUSIC MENTOR

NOW HERE IS A 10/10 PRAGRAM. YOU DO'NT NEED TO HAVE ANY TALENT TO TO USE THIS PROGRAMME BUT IT WOULD HELP. IF YOUR INTO MAKEING SOUND AFFECTS FOR YOUR GAMES THEN YOU'LL LIKE THIS. WITH THIS PROGRAMME YOU CAN CREATE A MASTER PIECE ON EITHER A PAINO, FLUTE, GONG, BRASS. THIS IS A MUST FOR ANYONE WITH MUSICAL INTERESTS.

IDENTITY QUEST

THIS IS A VERY ENTERTAINING GAME, ITS NO HITCHHIKERS GUIDE TO THE GALAXY BUT IT IS A VERY GOOD ADVENTURE. YOU CHOOSE THE CHARCATER THAT YOU LIKE AND WHEN YOUR SATISFIED WITH YOUR SELECTION YOU START YOUR QUEST, THE QUEST OF A LIFE TIME. YOU ALSO HAVE THE CHANCE TO CHOOSE THE WEAPONS THAT YOU WANT AND YOU CAN ALSO PICK UP GOLD AND JEWELS ON THE WAY. AS YOU ADVANCE ON YOUR ADVENTURE YOU ENCONTER GOBLINS AND MONSTERS, THESE RANGE FROM LAVA BEASTS TO STEEL STATUES. YOU NEED A SPECIAL WEAPON TO COMBAT EACH. IF YOU WANT TO SELL ANY OF YOUR WEAPONS TO INCREASE YOUR TREASURE YOU CAN THATS NO PROBLEM. BUT YOU HAVE TO PURCHASE FOOD AND DRINK TO SURVIVE YOUR QUEST. OVER ALL THIS IS A VERY GOOD ADVENTURE, I'D GIVE IT 7/10.

AIRFOX

THIS ISN'T A VERY ENTERTAINING GAME AT ALL. THE PLOT IS PROBABLY FROM A MAURICE GEE NOVLE. YOUR TASK IS TO BATTLE THE ODDS AND REACH A NUCLEAR REACTOR, WHICH THEN HAS TO BE DESTROYED. YOU (A SUPER HIGHT TECH HELICOPTER) HAVE TO FLY THROUGH AN UNDER GROUND CAVE DODGING LAZERS AND MINES. WHEN YOU GET THROUGH THAT YOU THEN HAVE TO RESCUE TWO SCIENTISTS WHICH DISABLE THE LAZER DEFENCE TO THE REACTOR AND THE OTHER ARMS THE DESTRUCTIVE DEVICE ON THE HELICOPTER. OVER ALL THIS IS A RATHER BORING GAME. IF YOU INTEND TO BUY THIS PRAGRAM MAKE SURE YOU HAVE CHILDREN AROUND THE AGE OF 11, THEY'LL GET THE MOST ENJOYMENT OUT OF IT.

STARTRECK

A RATHER SLOW GAME, THIS IS ABOUT AS SLOW AS FLIPPER SLIPPER AND ABOUT AS INTERESTING. IF YOU READ MY REVIEW ON FLIPPER SLIPPER YOU'LL KNOW WHAT I'M TALKING ABOUT. ITS NOT A BAD GAME IF YOU LIKE BORING AND SLOW GAMES. THERE IS NO GRAPHICS, THE ONLY THING THAT RESEMBLES A PICTURE IS WHEN YOU LOOK AT A MAP OF THE UNIVERSE, AND THEN ALL YOU SEE IS A SCREEN COVERED WITH ASTERICKS WITH THE ODD NUMBER HERE AND THERE. OVER ALL, THIS IS NOT A GAME YOU'D WANT TO PURCHASE. 4/10

PAGE THREE OF REVIEWS
BY MICHAEL CLINCH.

MADLIBRARY

IF YOU WANT TO LAUGH A LOT AND JUST HAVE A GOOD TIME THEN THIS IS DEFINATELY THE GAME FOR YOU. YOU ARE ASKED TO TELL IT SOME ADJECTIVES, VERBS, NOUNS AND SO ON, ONCE THATS DONE IT THEN GOES ON TO ASK WHAT

TYPE OF STORY YOU WANT THESE TO BE USED IN. YOU HAVE A CHOICE OF A WATER BED, AN ARMY STORY, A NEWS PAPER ADD AND A COWBOY STORY. YOU'LL BE IN STITCHES LAUGHING AT THE RESULTS. ALL AROUND THIS IS A VERY VERY ENTERTAINING PROGRAMME. ALL UP I'D GIVE IT 9/10.

SOVIET BASE

IF YOU'RE LOOKING FOR A GOOD ADVENTURE GAME THEN KEEP LOOKING. THIS ISN'T A GAME YOU'LL WANT. IF YOU WANT A VERY GOOD ADVENTURE TYPE GAME THEN TRY IDENTITY QUEST, THAT'S GOT EVERYTHING YOU'D WANT.

GOLDEN FLUTE

YOU MIGHT ENJOY THIS GAME AT FIRST BUT AFTER A WHILE THE NOVELTY OF IT WILL WEAR OFF AND YOU FIND IT GETTING WORSE AND WORSE. IT'S FILLED WITH MONSTERS, A BEAUTIFUL PRINCESS (IF THAT'S HOW YOU WANT TO PICTURE), A MAGIC CHARIOT AND AN EVIL CASTLE. YOUR TASK IS TO RETRIEVE THE FLUTE FROM THE EVIL SIDE OF THE FORCE. IF YOU LIKE THE SOUND OF IT SO FAR WHY NOT BUY IT AND THEN AFTER A WEEK OR SO SEE WHAT YOU THINK. I THINK IT'S WORTH 5/10 FOR THE EFFORT.

SAVE YOUR SOLES

IF YOU INTO SATANISM THEN YOU'LL REALLY THINK THIS IS A HOT GAME (PUN INTENDED). YOUR SOLE HAS BEEN CAPTURED BY THE DEVIL AND YOUR TASK IS TO RETRIEVE IT, ON THE WAY YOU ENCOUNTER HIS EVIL DOERS WHO INTEND TRY TO STOP YOUR CRUSADE. YOU HAVE THE OPPORTUNITY TO CHOOSE WHAT ATTRIBUTES YOU WANT TO FIGHT THE GOONS WITH E.G. STRENGTH, WISDOM, COURAGE, AND SO ON, YOU SHOULD GET TO LIKE THIS GAME IN TIME. I THINK IT'S WORTH 6/10 FOR THE EFFORT.

ESCAPE FROM SHERLON

I'VE ONLY ONE THING TO SAY ABOUT THIS GAME, IT'S NOT TOO BAD. IT'S STILL MISSING QUITE A BIT THAT MAKES A GOOD ADVENTURE BUT STILL IT'S NOT TOO BAD FOR AN ADVENTURE GAME. THERE ISN'T MUCH ELSE TO SAY ABOUT THIS, EXCEPT IF YOU'RE LOOKING FOR A MODERATELY GOOD ADVENTURE THEN YOU MIGHT LIKE THIS.

A FEW WORDS ON BULLATIN BOARDS BY MICHAEL CLINCH.

BULLATIN BOARDS

IF YOUR LUCKY ENOUGH TO HAVE A RS232 AND A MODEM THEN YOU'VE GOT ACCESS TO WHAT-EVER YOU WANT. IF YOU HAVE'NT THEN YOUR MISSING OUT ON QUITE A BIT. HERES SOME OF THE FEATURES ON A BULLITIN BOARD I LOG-ON TO. ONE YOU GAIN FULL ACCESS TO THE BOARD, THIS YOU DO BY BECOMMING A MEMBER(MOST BOARDS ARE FREE, BUT A FEW MIGHT COST ABOUT \$30 A YEAR), YOU'VE GOT A MAIN MENU FROM WHICH YOU CHOOSE YOUR DESIRED FUNCTION FROM, EG. SEE MESSAGE SELECTION, LIST FILES, LIST MEMBERS, CHECK YOUR MAIL BOX (THIS IS USUALLY DONE AUTOMAICLY WHEN YOU LOG-ON), AND SEVERAL OTHER ALTERNATIVE. IF YOU CHOOSE TO SEE THE MESSAGE SELECTION FOR INSTANCE, YOU THEN MIGHT HAVE A CHANCE TO EITHER POST A LETTER, READ YOUR MAIL, READ THE PUBLIC NOTICES, AND SO ON. IF YOUR NEW TO A BULLITIN BOARD (LIKEME) YOU MIGHT HAVE A LITTLE BIT OF TROUBLE AT FIRST, YOU SHOULD LEARN YOUR WAY AROUND THE SYSTEM IN A FEW DAYS. IF YOUR LOOKING FOR A CHEAP MODEM TO START WITH THEN I'D TRY STARTING WITH A 300 BAURD MODEM, BUT AS YOU'LL SOON SEE THIS CAN BE VERY TIME CONSUMEING. THE BEST BAURD RATED MODEM TO HAVE WOULD BE A 1200 BAURD (WELL THATS MY OPINION). IF YOUR NOT INTRESTED IN THIS TYPE OF COMPUTING THEN YOUR MISSING OUT ON QUITE AN EXPERIANCE. IF YOU EVER HAVE THE CHANCE TO LOG-ON TO A BOARD THEN GO FOR IT.

===== END =====

A SIMPLE PROJECT FOR SVI-328 COMPUTER WITH OR WITHOUT EXPANDERS.

RESET BUTTON TO RESET SYSTEM

YOU WILL NEED TO GET- 1: 1x9 PIN D PLUG(MALE)WITH SOLDER TAILS
2: 1xPUSH TO MAKE RELISE TO BRACK SWITCH

- 3: TWO LENGTHS OF HOOKUP WIRE 2IN LONG EACH
- 4: A SMALL CASE IE(A TIC-TAC CASE)ASK THE KIDS
- 5: A SOLDERING IRON AND SOLDER

NOW WE ARE SET TO START TO MAKE TO RESET BUTTON. FIRST-SOLDER ONE WIRE TO ONE LEG/PIN OF THE SWITCH THEN SOLDER THE OTHER PIECE OF WIRE TO THE OTHER LEG/PIN OF THE SWITCH. NEXT MAKE A SMALL HOLE IN THE LID OF THE TIC-TAC BOX (TAKE LID OFF BOX FIRST) SO THE SWITCH WILL FIT IN THE HOLE. AFTER THAT GET THE PLASTIC BOX AND MARK A HOLE ON THE BOTTOM FOR THE 9 PIN D PLUG TO FIT THROUGH THEN CUT THE HOLE OUT (TAKE CARE AS THE PLASTIC MAY BRAKE). NOW SOLDER ONE WIRE(DOSENT MATTER WITCH ONE) TO PIN No.7 THEN SOLDER THE OTHER WIRE TO PIN No.8 AFTER (CONT NEXT PAGE.)

THAT IS DONE THEN PUT PLUG IN CASE SO THE PLUG NOT THE SIDES OF IT COME OUT THE HOLE IN THE BOTTOM. WHEN IT IS IN PLACE PUT SOME GLUE (EPOXLEY,SILICON,ETC) INSIDE ON THE SLDE PICES OF THE PLUG SO IT WON'T MOVE LEAVE IT TO DRY, WHEN IT IS DRY PUT SWITCH THROUGH HLOE IN LID AND DO UP THE FASTENER IF IT HAS ONE THEN PUSH THE LID ON (YOU CAN CLUE THE LID ON IF YOU WANT) AND IT'S FINISHED. NOW JUST PLUG IT IN TO ONE OF THE JOYSTICK PORTS AND THERE YOU HAVE IT A RESET BUTTON. YOU CAN REMOVE OR PUT IT IN AT ANY TIME WITH NO ETECT TO THE SYSTEM UNLESS YOU PRESS THE BUTTON AT THE SAME TIME THAT IS.

GOOD LUCK.

I HAVE BEEN ASKED ABOUT USING SPRITES IN A BASIC PROGRAM AND HOW DO YOU DEFINE A SPRITE AND HOW TO PUT THE SPRITE IN A PROGRAM. ALSO HOW TO DO COLOURED SPRITES WAS ALSO PART OF THE QUESTION THAT WAS ASKED, SO I DECIDED TO DO AN ARTICLE ON GRAPHIC'S FOR THOSE WHO MAY WANT TO KNOW ABOUT THEM BUT DIDN'T WANT TO ASK. IF THERE IS A SUBJECT THAT YOU WOULD LIKE TO BE INCLUDED IN THIS COLUMN PLEASE LET ME KNOW AND I WILL TRY TO INCLUDE IT IN THE NEXT LETTER.

~~~~~ USING GRAPHIC'S:- SPRITES (PT1) ~~~~~

TO START THIS SUBJECT OFF I WILL GO BACK TO BASICS, IN THE BASIC REFERENCE MANUAL FOR SVI-238/318 COMPUTERS IT USES THE BINARY SYSTEM TO MAKE A SPRITE, THEIR ARE ALSO THE HEXADECIMAL AND THE DECIMAL AS WELL AS VPOKE AND M/CODE WAYS OF MAKING SPRITES.

THE EASY WAY TO MAKE A SPRITE IS TO USE THE BINARY METHOD AS YOU WILL SEE IN THE EXAMPLE THAT WILL FOLLOW.

```
10 REM SPRITE
20 CLS
30 SCREEN 1
40 FOR I = 1 TO 8
50 READ SP$
60 A$ = A$ + CHR$ (VAL (" &B " + SPRITE$ ))
70 NEXT I
80 SPRITE$ = (1) = A$
90 PUT SPRITE 1, ( 40 , 60 ), 15 , 1
100 GOTO 100
110 DATA 11111111
120 DATA 10000001
130 DATA 10000001
140 DATA 10000001
150 DATA 10000001
160 DATA 10000001
170 DATA 10000001
180 DATA 11111111
```

LINE 10 THE REM STANDS FOR REMARK, IT IS A GOOD PRACTICE TO PUT THESE IN YOUR PROGRAMS AS THEY LET OTHER PEOPLE KNOW WHAT THAT SECTION IS DOING AND IN A LARGE PROGRAM IT CAN SAVE MANY A HEADACE AND MANY MANY HOURS OF LOOKING AND TRYING.

LINE 20 WE HAVE PUT A CLS THIS IS TO CLEAR THE SCREEN AND IS A GOOD PRACTICE TO GET INTO IF YOU ARE GOING TO DO TEXT OR GRAPHICS.

LINE 30 TELL'S THE COMPUTER THAT WE WANT TO USE SCREEN 1 THIS SCREEN IS THE HIGH RESOLUTION SCREEN FOR THE 328/318 COMPUTERS. THERE IS ALSO TWO OTHERS THEY ARE SCREEN 0 AND SCREEN 2, SCREEN 0 IS A TEXT SCREEN THAT IS IT CAN ONLY USE TEXT CHARACTERS IE 12MFDTY>: \$* AND ALIKE, SCREEN 2 IS THE LOW RESOLUTION

SCREEN AND YOU CAN HAVE MORE COLOURS ON THE SCREEN AT ONE TIME THAN IN SCREEN ONE(1), ALTHOUGH THIS SOUNDS BETTER THAN SCREEN 1 THE GRAPHICS ARE MORE CHUNKEY SO ONE TRADES OFF WITH THE OTHER.

LINE 40 (FOR I = 1 TO 8) THIS TELL'S THE COMPUTER THAT WE WANT IT TO LOOP EIGHT (8) TIMES, THAT IS TO DO THE SAME THING EIGHT TIMES IN A ROW. THEIR ARE OTHER COMMANDS THAT GO WITH FOR BUT WE WILL DISCUSS THESE AT A LATER DATE.

LINE 50 (READ SP\$) THIS TELL'S THE COMPUTER THAT THERE IS SOME DATA LINES FOR IT TO READ IN THE PROGRAM SOMEWEAR AND IT WILL READ THE FIRST SET OF DATA IT COMES TO IF IT HAS NOT RED IT BEFOR. THIS IS BECAUSE WHEN THE COMPUTER READS DATA FOR THE FIRST TIME IT REMEMBERS THAT DATA AS BEING RED AND WONT READ IT AGAIN UNLESS IT IS TOLD TO BY A COMMAND CALLED RESTORE THIS COMMAND WILL RESTORE THE DATA LINES SO THE COMPUTER WILL READ THEM AGAIN. YOU HAVE TO BE CAREFUL WITH THIS COMMAND AS IT CAN MESS UP YOUR WHOLE PROGRAM IF NOT USED THE RIGHT WAY, WE WILL DISCUSS THIS COMMAND MORE LATER ON. THE SP\$ IS THE PLACE THAT WE HAVE PUT THE BINARY CODE FOR THE TIME BEING AS WE NEED IT TO BE CONVERTED LATER ON TO A SPRITE, THE PLACE THAT SP\$ STORES THE CODE IS CALLED AN ARRAY THIS IS LIKE A SET OF BOXES EACH WITH A NAME THAT YOU GIVE IT, WE WILL TALK MORE ON ARRAYS LATER ON.

LINE 60 (A\$ = A\$ + CHR\$ (VAL (" &B " + SP\$)) NOW THIS IS WERE IT GET'S A BIT STICKY, THE A\$ IS THE BOX WE WANT OUR SPRITE DATA TO BE HELD IN UNTILL WE MAKE THE SPRITE IT'S SELF, THE = A\$ TELL'S THE COMPUTER THAT ALL THE DATA IS TO BE HELD IN THE ONE BOX, THE CHR\$ TELL'S THE COMPUTER THAT THE DATA IS TO BE A CHARACTER EQUIVALENT OF THE BINARY DATA THAT IS TO BE PUT IN A\$, THE (VAL TELL'S THE COMPUTER THAT THE DATA IS TO BE CONVERTED TO A NUMERIC VALUE THAT'S A NUMBER BETWEEN 0 AND 256 IN THIS CASE, THE (" &B ") TELL'S THE COMPUTER THAT THE DATA IS IN BINARY FORM AND THE SP\$ HOLDS THE BINARY DATA FOR THE CONVERSION PROCESS.

LINE 70 (NEXT I) THIS TELL'S THE COMPUTER TO LOOP OR GO BACK TO THE LINE WITH THE FOR I = 1 TO 8 IN IT AND CONTINUE ON WITH WHAT IT IS TO DO. WHEN I HAS BEEN BEEN THROUGH 8 TIMES SO THAT I=8 THEN IT WILL NOT LOOP BACK TO THAT LINE IT WILL GO TO THE NEXT LINE UNDER THE NEXT I STATMENT.

LINE 80 (SPRITE\$ = (1) = A\$) THIS TELL'S THE COMPUTER THAT A SPRITE PATTEN IS TO BE MADE AND IT IS TO BE CALLED SPRITE PATTEN NUMBER (1) AND THE DATA FOR THIS SPRITE IS IN THE BOX CALLED A\$, SO THIS MEANS THAT SPRITE\$ = SPRITE PATTEN NUMBER (1) WICH =A\$. IF A\$ IS CHANGED AT ANY TIME YOUR SPRITE WILL NOT BE THE SAME AS YOU WANTED IT TO BE, MORE ON THIS LATER.

LINE 90 (PUT SPRITE 1, (40,60), 15, 1) THIS TELL'S THE COMPUTER ALOT OF THINGS IT WILL NEED TO KNOW TO BE ABLE TO SHOW YOUR SPRITE AND WHEN YOU KNOW HOW TO, TO MOVE THE SPRITE AROUND THE SCREEN OR CHANGE COLOUR OR EVEN MAKE IT GO AWAY IF YOU WANT. THE PUT SPRITE TELL'S THE COMPUTER THAT THE SPRITE IS GOING TO BE PUT SOME WERE ON THE SCREEN AND THE 1, TELL'S THE COMPUTER THAT THE SPRITE IS SPRITE NUMBER ONE (1). THE NEXT PART (40,60) TELL'S THE COMPUTER WERE TO PUT THE SPRITE ON THE SCREEN, THAT IS THE 40 TELL'S IT TO PUT THE SPRITE 40 PIXELS TO THE RIGHT OF THE LEFT HAND SIDE OF THE SCREEN AND 60 PIXELS DOWN FROM THE TOP OF TH SCREEN. THE (15) TELL'S THE COMPUTER THAT THE SPRITE IS TO BE IN THE COLOUR WHITE (15), YOU CAN CHANGE THIS TO ANY OF THE 16 COLOURS THAT ARE AVAILBLE TO YOU, THESE ARE 0-TRANSPARENT, 1-BLACK, 2-MEDIUM GREEN, 3-LIGHT GREEN, 4-DARK BLUE, 5-LIGHT BLUE, 6-DARK RED, 7-CYAN, 8-MEDIUM RED, 9-LIGHT RED, 10-DARK YELLOW, 11-LIGHT YELLOW, 12-DARK GREEN, 13-MAGENTA, 14-GRAY, 15-WHITE. THE (,1) AT THE END TELL'S THE COMPUTER THAT THE SPRITE NUMBER ONE IS TO HAVE THE PATTEN NUMBER ONE(1), YOU CAN HAVE MORE THAN ONE SPRITE WITH THE SAME PATTEN NUMBER, MORE ABOUT THIS LATER.

LINE 100 THIS TELL'S THE COMPUTER THAT IT IS TO STAY WHERE IT IS, THIS IS AN EASY AND A GOOD WAY TO STOP THE COMPUTER FROM FINISHING AND GOING BACK TO THE TEXT SCREEN AND PUTTING AN OK ON THE SCREEN BECAUSE IT HAS FINISHED WHAT IT WAS TOLD TO DO.

LINE 110 TO 190 THESE LINES ARE THE BINARY DATA LINES FOR THE SPRITE, IN BINARY A 1= ON AND A 0= OFF SO IF YOU HAD A SET OF LIGHTS SET UP AS THE DATA LINES 110-190 YOU WOULD SEE SOMETHING LIKE THIS:

11111111	=	*****	=	ON,ON,ON,ON,ON,ON,ON,ON.
10000001	=	*	*	= ON,OFF,OFF,OFF,OFF,OFF,OFF,ON.
10000001	=	*	*	= ON,OFF,OFF,OFF,OFF,OFF,OFF,ON.
10000001	=	*	*	= ON,OFF,OFF,OFF,OFF,OFF,OFF,ON.
10000001	=	*	*	= ON,OFF,OFF,OFF,OFF,OFF,OFF,ON.
10000001	=	*	*	= ON,OFF,OFF,OFF,OFF,OFF,OFF,ON.
10000001	=	*	*	= ON,OFF,OFF,OFF,OFF,OFF,OFF,ON.
11111111	=	*****	=	ON,ON,ON,ON,ON,ON,ON,ON.

THIS END'S THE FIRST PART OF THE DISCUSSION ON SPRITES FOR NOW BUT I WILL NOW GIVE YOU SOME EXERCISE'S TO TRY OUT AND SEE IF YOU CAN MAKE HEADS OR TAILS OUT OF THEN.

EXERCISE'S-TYPE THE ABOVE PROGRAM IN AND TRY THE EXERCISE'S OUT, DON'T WORRY IF YOU FIND YOURSELF LOST OR IT DOESN'T WORK. JUST STOP AND HAVE A REST AND THEN LOOK AT WHAT YOU HAVE ENTERED, YOU MAY HAVE TYPED IN A WRONG WORD OR LETTER THAT'S ALL. IF YOU STILL HAVE PROBLEMS THEN DROP ME A LINE AND I WILL TRY AND SORT OUT WHERE YOU HAVE GONE WRONG.

NUMBER 1: CAN YOU MAKE THE SPRITE GO AWAY BY USING THE COLOUR'S AND THEN BRING IT BACK AGAIN.

NUMBER 2: CAN YOU MAKE THE SPRITE GO TO THE BOTTOM OF THE SCREEN. HINT- THE SCREEN IS 256 WIDE BY 192 LONG.

NUMBER 3: CAN YOU MAKE THE SPRITE TURN TO INVERSE THAT IS THE 0'S TO 1'S AND THE 1'S TO 0'S. HINT- REMEMBER THE LIGHT'S DEMO???ABOVE.

NOW FOR SOME FUN WITH THE SPRITE YOU HAVE MADE.

NUMBER 4: CHANGE LINE 90 TO READ LIKE THIS:
90 PUT SPRITE 1, (X , Y) , 15 , 1

NUMBER 5: NOW TYPE IN THESE TWO LINES:
85 FOR X = 1 TO 256
95 NEXT X
NOW RUN THE PROGRAM AGAIN

NUMBER 6: NOW TYPE IN THIS AS WELL, THEN RUN THE PROGRAM AGAIN:
83 X = 0 : Y = 80 : C = 1
86 C = C + 1
94 IF C = 15 THEN C = 1
