1. Page 1 (at FROG-STEP)

The objective of this page is to collect fuel-can. This can be done by getting the letters of "FUEL" in sequence. A time limit is set. When time is over the fuel-can will disappear and one fuel-can will be lost. TAMO will jump up and down the stepping stones to avoid the monsters and falling skulls. Jumping out of the stepping stones will cause fatal damage to TAMO. And there is a time count for him to collect fuel-can, so he must be fast in action.

2. Page 2 (Outer part of TETRA CASTLE)

After getting the fuel-can, TAMO enters the outer part of TETRA CASTLE and tries to destroy the skulls floating in the air by his fire gun. But there are some stones rolling along the path and TAMO can avoid them by climbing up the stair or go to the path where there is no rolling stones.
