COUPON MANAGEMENT

No more endless searching for non-existent coupons! With Spectravideo's Coupon Management program you can easily maintain a very large inventory of coupons. You can instantly search through your collection, instantly add new ones and instantly erase old ones.

RECIPE MANAGEMENT

The Spectravideo Recipe Management program takes the guesswork out of food preparation, whether you are preparing for 5 or 100 people! Once you entered the original recipes, the computer can figure out the precise proportion of each ingredient you will need, based on the number of people you are preparing for. It will display the results graphically.

Tips on Handling Storage

1. Avoid touching the tape with your fingers; you may cause drop-outs or scratches.
2. Protect your cassette from dust and damage when not in use by keeping it in its protective plastic box.
3. The tape should be wound snugly on the cassette reel. If the tape is ever a little loose, carefully tighten it by gently turning one of the hubs in the correct direction.

4. Keep the recorder head and pinch roller clean by regular use of a good cassette head cleaner.
5. Avoid prolonged exposure of cassette to excessive heat (such as direct sunlight); avoid exposure to strong magnetic fields. Do not store near heating appliances, TV sets or similar appliances.
6. To preserve valuable or prized recordings, punch out and remove the erasure prevention lug on the top edge of the cassette.
