

INTRODUCTION

TELEBUNNY is a one player game with two main characters, the sly Bunny and the greedy Turtle. Both of them are trapped in a fruit maze, so are some wicked snakes chasing after Bunny. Life is not so easy. All fruits are hidden under those red hearts scattering around. Turtle should be well fed with fruits before he gets out of the maze and advances to a brand new level.

GETTING STARTED

1. Hook up your computer to TV or monitor. Connect data cassette player to computer. Turn all units on.
2. Insert tape to cassette player. Rewind fully. Type:
load"bunnie",r
ENTER
The following will appear:
Found : bunnie
And the game will start automatically.
3. There are six options:

- 1 PLAYER
- 1 PRACTICE ONLY
- 2 NORMAL PLAY
- 3 ARCADE LEVEL
- 11 PLAYERS
- 4 PRACTICE ONLY
- 5 NORMAL PLAY
- 6 ARCADE LEVEL

Simply press the number to choose your desired mode. If option 4, 5 or 6 is chosen, another message will display:

- 1 ONE JOYSTICK
- 2 TWO JOYSTICKS

Press 2 if you want two joysticks control.

4. Escape Feature

To put the game on pause, just press **ESC** once. To resume action, press **ESC** the second time.

5. If during a game, you desire to start all over again, press **CTRL** and **STOP** simultaneously. The game will start from game mode selection page.

6. Restart from Gameover

If you want to play again as a game is over, just press any key.

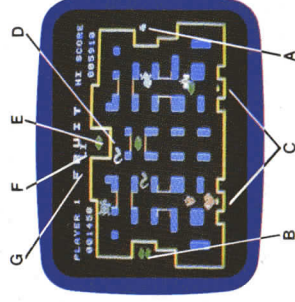

Turtle and Bunny are messing about in a fruit maze. Only you can master over them through joystick. See, Bunny is busy leaping around to unveil whatever hidden under red hearts. It might be a broken heart, strawberry, carrot or the fruit displayed at the top of the screen. Turtle is rather choosy, he doesn't like carrot nor broken heart. The latter is fatal to him while a carrot should be reserved for Bunny. Those snakes are disgusting. They hang around Bunny. She's got to run for her life, or digging holes or passing through tunnels. Here comes the chance to take revenge! Quick, go and bite the carrot. Bunny turns to an alien. Now she's able to attack those snakes. But time is short, Bunny will return to her normal self pretty soon.

As bunny is safe for a while from the hot pursuit, why not heed Turtle to enjoy some fruits? Press trigger button on joystick or space bar, the Turtle is under your control. Move him towards those juicy fruits, in particular strawberry. Watch out! Don't endanger Bunny's life as Turtle lingers on. Release the trigger if necessary.

There are other useful features: a pond dug by Bunny can drown a snake as well as herself; it may quench the thirst of Turtle. A flying mosquito threatens Bunny's life. Release the trigger if necessary.

Turtle has to fin-sh sufficient quantity of fruits in each maze before its name is spelt out. Once this happens, a gate will be opened. Move Turtle towards it and he can march to the next maze. Another splendid feast and crazy chase are waiting for him and his partner.

INDICATOR & OBJECTS ON THE SCREEN

- A: Number of bunnies still surviving.
B: Number of turtles still surviving.

- Tips on Handling and Storage
1. Avoid touching the tape with your fingers; you may cause drop-outs or scratches.
 2. Protect your cassette from dust and damage when not in use by keeping it in its protective plastic box.
 3. The tape should be wound snugly on the cassette reels; if the tape is loose, carefully wind it on to one of the reels by gently turning one of the hubs.
 4. Keep the recorder head and pinch roller clean by regular use of a good cassette head cleaner.
 5. Avoid prolonged exposure of cassettes to excessive heat, sunlight and strong magnetic fields. Do not store near heating appliances, TV sets or similar equipment.
 6. To preserve valuable or prized recordings, punch out and remove the erasure prevention lug on the top edge of the cassette.

C: Outlet of snakes.

D: The only exit. A gate will be opened after a certain number of fruits has been consumed.

E: As this fruit is eaten, a higher level is accessed.

F: Name of the fruit. The exit door is opened when the whole word appears.

G: Indicate number of strawberries being eaten. A bonus page will be given when the color of the word "FRUIT" has been changed. It serves as a counter in the bonus page.

OBJECTS IN THE MAZE

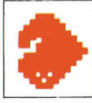

Alien

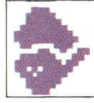

Mosquito

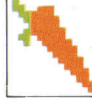

Red Heart

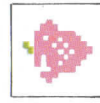

Broken Heart

Carrot

Strawberry

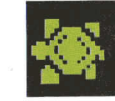

Good friend of Turtle. There are six of them in each game level. Control your joystick to move Bunny around. Tread on red hearts and whatever hidden underneath will be revealed. Beware: snakes are her deadly enemies. She may dig holes or change a broken heart or fruit to something else by pressing the **RIGHT GRPH** key.

Bunny

He needs to get out of the maze by consuming a certain amount of fruits. There are three of them in each game level. By then a gate will be opened at the top of the maze. Broken heart is fatal to Turtle. He loves strawberry and empties a pond whenever he meets it. He feels thirsty in game levels 3 and 6. Control his movement through joystick and trigger.

Turtle

Snake

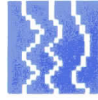

It always runs after bunny and has no interest in turtle nor fruits at all. As a bunny turns to an alien, she will kill it, yet more will stream out from the bottom outlets.

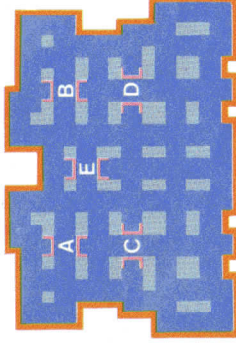

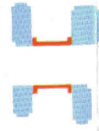

Mosquito Egg
A turtle should eat it before it hatches to a mosquito. When it appears, the motion of a turtle is speed up.

Pond
A pond is formed as a bunny digs a hole and water fills it up. Both snake and bunny will get drowned. In arcade level, the turtle needs water to quench his thirst...

Tunnel
Tunnels A and D are in pair. So are tunnels B and C. Very useful feature to get away from chasing snakes and mosquitoes. When a bunny is under bridge A, give a leftward push to the joystick and she will appear right under bridge D. Bunny will reappear at tunnel E after digging hole.

Joystick

For the bunny going upward, downward, leftward and rightward.

Joystick + Trigger (Space Bar)

Signal the turtle to change his direction, unless his way is blocked. Also the trigger is stored and the appropriate movement will be executed if this cannot be taken immediately.

For example, as the turtle is going upward, he receives a downward signal. He will reverse his direction immediately if possible. Say another signal of turning left is on, and the turtle cannot change his direction at that moment. He will keep on going until he can turn left.

When the signal is on, an arrow will be displayed outside the left margin of the maze. Also the bunny is turned green.

Key

RIGHT GRPH

For Digging Hole

A bunny can dig a hole in the maze simply with a press of this key. After digging a hole, she will disappear from the hole and reappear under bridge E. She should not stand on bridges or run through tunnels as she digs hole. Neither should she stand on fruits.

For Destroying

Bunny should tread on a broken heart or fruit as the key is pressed. A red heart will then be generated. However, mosquito egg cannot be destroyed in this way.

Refer to the following chart for different game levels:

Level	1	2	3	4	5	6
Egg/Mosquito	no	yes	yes	no	yes	yes
No. of Snake	1	2	2	1	2	2
Turtle Feels thirsty	no	no	yes	no	no	yes

The twelve pages are distinguishes by the following sequence of fruits: lime, pear, apple, lemon, peach, mango, grape, banana, papaya, tomato, cherry and orange.

The Dark Page

When you reach the highest page, it turns to a black maze. Everything will be the same except that only the frame and the bridges are visible.

The Bonus Page

There are five fruits and eight carrots in the maze for bunny and turtle to enjoy. They should finish these fruits within a fixed period of time. If the turtle eats the fruit outside the maze, a bonus 2000 will be added to your score. An extra bunny will be added to you. No bonus bunny if you've got six already. On the other hand, mosquitoes will be more severe after each bonus page.

SCORING

	Normal Page	Bonus Page
Turn Red Heart	50	—
Turtle recovered from thirst	200	—
Snake fallen into pond	200	—
Eat Fruit in Maze	200	2000
Eat Fruit outside Maze	400	2000
Eat an Egg	300	—
Eat strawberry	200	—
Snake eaten by an alien	300	—
Eat a Carrot	150	200

SPECIAL TIPS

When mosquitoes are flying, don't stay at the bottom of the maze. They will catch you. In order to get away from their attacks, Bunny should keep on moving leftward or rightward, or make use of the pairing tunnels.

If you want to get higher score, trap the snakes by making more water ponds or eat them by changing to an alien. Remember you cannot control the turtle once Bunny has been changed to an alien.

WARNING: For all SVI-318 users, please add SVI-601/SVI-602 Expander Together with SVI-803/SVI-807 16K/64K RAM Cartridge to play this game.
