Tips on Handling and Storage

1. Avoid touching the tape with your fingers; you may cause drop-outs or scratches.
2. Protect your cassette from dust and damage when not in use by keeping it in its protective plastic box.
3. The tape should be wound snugly on the cassette reels. If the tape is loose, carefully wind it on to one of the reels by gently turning one of the hubs.

4. Keep the recorder head and pinch roller clean by regular use of a good cassette head cleaner.
5. Avoid prolonged exposure of cassettes to excessive heat, sunlight and strong magnetic fields. Do not store near heating appliances, TV sets or similar equipment.
6. To preserve valuable or prized recordings, punch out and remove the erasure prevention lug on the top edge of the cassette.

PANEL INDICATOR

1. Indicator
 - a. Stage 1 indicates number of Jetfoils left.
 - b. Stage 2 indicates number of Radar left to be picked up.
 - c. Stage 3 indicates time left for finishing the stage.

2. TURBOAT count

Indicates number of TURBOAT remaining.

3. Player indicator

Indicates current player.

4. Scores

Position of players' scores and high score are shown. Score for current player will be indicated by player indicator.

4. Game Over

Game is over for a player when there is no more TURBOAT left.

SKILL LEVELS

The player's skill level depends on mode selected. The highest level of each mode is the next mode's lowest skill level. For example, if a player selects PRACTICE ONLY mode, the highest level he will reach is the NORMAL PLAY mode. Similarly, if he selects NORMAL PLAY mode, then the highest level he can reach is the ARCADE LEVEL.

In this game, the game play is the same for different skill levels. Each skill level differs from the other according to the following criteria:

1. Appearing frequency of fort missiles, islands (both stage 1 and 3), torpedoes, aeroplanes' bombs and smart missiles. i.e. objects appear more frequently for higher levels.
2. Enemies appear simultaneously on screen. This is shown in the following table.

	Practice Level	Normal Play	Arcade Level
Side collision (stage 1 and 3)	No	Yes	Yes
Fort missiles	No	Yes	Yes
Islands (stage 1 and 3)	No	No	Yes
Aero-plane	No	Yes	Yes
Smart missiles	No	Yes	Yes

2. Stage 2

After TURBOAT enters the central waters, try to pick up the secret radars. TURBOAT has no bullets in this stage. These radars are protected by Aeroplane with bombs and Torpedoes. TURBOAT has to avoid aeroplane bombs and torpedoes to protect himself.

3. Stage 3

This is the last stage of TURBOAT's mission. Guided missiles come from behind. Torpedoes come from both front and back. TURBOAT must avoid the missiles until the time count is completed.

Remarks: 1. The time count of 3 stages are the same for different levels.

2. Side collisions are not checked on the first round in normal play level.

CONTROL

Both player 1 and player 2 can use joystick or the keyboard. If two joysticks are used for two players then player 1 uses joystick 1 and player 2 uses joystick 2.

In order to change direction of TURBOAT, the player can move the joystick or the left or right arrow keys on the keyboard. To move TURBOAT immediately backward, move the joystick to the backward position or press the down-arrow key on the keyboard. To move TURBOAT forward press the trigger 1 or the space bar. To fire bullet press the trigger 2 or the graph key on keyboard.

"SHIFT" key is a specific function used in stage 1. When key is pressed, the AUTO-SHOOT proceeds. Press again to resume manual control.

SCORING

Passing an Island	10
Passing a Torpedo	10
Time count each increment	10
Destroy a Fort	100
Destroy a Jetfoil	200
Pick up a Radar	250

AWARD

An extra TURBOAT will be given after finishing every 3 stages (move to a higher level) unless the player already has 6.

WARNING: For all 318 user, please add SVI-601/602 Expander together with SVI-803/807 16K/64K RAM Cartridge to play this game.

SPECTRAVIDEO SOFTWARE AND ACCESSORIES LIMITED 90-DAY WARRANTY

SPECTRAVIDEO SOFTWARE AND ACCESSORIES LIMITED warrants to the original purchaser that the software and accessories supplied by us will be free from defects in material and workmanship under normal use for a period of 90 days from the date of purchase. If within this period the software or accessories are found to be defective, we will, at our discretion, repair, replace or refund the purchase price of the defective software or accessories. This warranty does not cover software or accessories which have been modified, altered, damaged, misused, or which have been used in conjunction with other software or hardware not supplied by us.

This warranty is limited to the electronic components of the software and accessories supplied by us. It does not cover the physical components of the software and accessories, such as the floppy disk, cassette tape, or the manual. The warranty is void if the software or accessories have been used in conjunction with other software or hardware not supplied by us.

neglect. This warranty is in lieu of all other express warranties and no other representation or claims of any nature shall be binding on or obligate SPECTRAVIDEO. Any implied warranties applicable to this software are limited to the 90 days period described above. In no event will SPECTRAVIDEO be liable for any special, incidental, or consequential damages or for loss of profits, data, or other rights which may result from possession, use or malfunction of this software.

Some states do not allow limitations on how long an implied warranty lasts and/or the exclusion or limitation of incidental or consequential damages to the above limitations and/or exclusion or limitation of liability may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
