

U.S. GEOGRAPHY I (U.S. CAPITALS)

INTRODUCTION

Another member of our fine SPECTRAQUIZ series, U.S. GEOGRAPHY PART I (U.S. CAPITALS) tests your knowledge of the capital cities in the United States, with a few surprise questions on American territories.

Like the other programs in the SPECTRAQUIZ series just fully rewind your data cassette tape and type "CLOAD" and press the ENTER key. After you see the "OK" prompt, type "RUN" and again press the ENTER key. In a short time you will see the opening logo and then the title screen. After a brief moment, the computer will be prompted to press any key to begin. In about 10 to 15 seconds, a few moments later, instructions will appear on your screen and the game will begin.

This quiz has two sections (beginner and advanced). Each section consists of three rounds of nine questions. At the end of each round, all questions answered incorrectly are reviewed with the correct answers. You will also be timed, and the faster you answer a question correctly, the higher your score will be.

BRIEF INSTRUCTIONS

1. Turn the computer on.
2. Place your U.S. Geography I program in Data Cassette Recorder, and rewind fully so that all the tape is on the left-hand spool.
3. Type CLOAD and then press ENTER.
4. Press "play" on the data cassette as directed by the computer.
5. Then wait until the computer prints "Pound: COPS" and then the OK prompt on the screen.
6. Press "stop" on the data cassette.
- Note: Steps 1-6 are called "CLOADING".
7. Type RUN and then press ENTER.
8. The program is essentially self-guiding from this point on.

DETAILED INSTRUCTIONS

(HIT ANY KEY TO CONTINUE OR T FOR TONE)

The computer will put you on standby for a few moments, and then you will see:

This program will test your knowledge of U.S. CAPITALS.

In this quiz you will be given some facts about a state's capital city and asked to identify the city.

Each question will be multiple choice. The point value for each question will be determined by how quickly you can select the correct answer from the choices given.

For each question, four possible answers will be given. Only one of them is correct.

(The following assumes that you have already performed steps 1-7 under "Brief Instructions".)

After pressing RUN and then ENTER, you will see on the screen:

"Please insert your data cassette..." Ignore this comment. This is for future modules in the Spectraquiz Series.

Now press any key to continue. You will be asked to "Press play on cassette." After you do so, the computer will inform you, "One moment, I'm reading data".

In a minute or so, you will hear the song "God Bless America" (make sure the volume on your TV or monitor is up), and then you'll know you're on your way with U.S. CAPITALS!

Here's what you will see:

PLEASE STANDBY

Read this material carefully. When you've done so, press any key to continue, then be sure to follow the directions you are given. Round 1 will begin, and you will see:

QUESTION 1

The capital of Alaska was a gold rush town settled by miners in 1880. It reaches 40 degrees below 0.

THE CHOICES ARE:

- (1) - Phoenix
- (2) - Little Rock
- (3) - Jeneau
- (4) - Olympia

Your answer?:

Try your best at answering all 27 questions in section 1. We hope you score 100%, but if you miss a few, here are some things you'll encounter.

You'll quickly discover that time is of the essence! In fact, the faster you press the correct answer, the more points you will score. You can even see your points ticking steadily away by watching the counter in the upper right hand corner of the screen.

If time runs out on you (you have about 30 seconds), it will be the equivalence of a wrong answer. Wrong answers will be accompanied by nasty comments such as:

QUESTION 1

The capital of Alaska was a gold rush town settled by miners in 1880. It reaches 40 degrees below 0.

THE CHOICES ARE:

- (1) - Phoenix
- (2) - Little Rock
- (3) - Jeneau
- (4) - Olympia

Your answer?:

Sorry, that answer is wrong.

TRY HARDER

Your next question is:

Since this program is designed to help you learn, the computer will review all the questions you miss after the round ends. For example:

These are the questions you answer incorrectly in this round:

After reviewing all your wrong answers with you, the computer will automatically move on to section 2. This section - as well as section 3 - are pretty much the same, though the questions become increasingly difficult.

Your total score will be displayed at the very end of the program. Good luck!

- Tips on Handling and Storage
1. Avoid touching the tape with your fingers; you may cause drop-outs or scratches.
 2. Protect your cassette from dust and damage when not in use by keeping it in its protective plastic box.
 3. The tape should be wound snugly on the cassette reels; if the tape is loose, carefully wind it on to one of the reels by gently turning one of the hubs.

4. Keep the recorder head and pinch roller clean by regular use of a good cassette head cleaner.
5. Avoid prolonged exposure of cassettes to excessive heat, sunlight and strong magnetic fields. Do not store near heating appliances, TV sets or similar equipment.
6. To preserve valuable or prized recordings, punch out and remove the ensure prevention lug on the top edge of the cassette.

SPECTRAVIDEO SOFTWARE AND ACCESSORIES LIMITED 90-DAY WARRANTY

SPECTRAVIDEO warrants to the original purchaser that the SPECTRAVIDEO software is free of defects in material and workmanship for a period of 90 days from the date of purchase. SPECTRAVIDEO agrees to either repair or replace, at no charge to the purchaser, any software found to be defective within the warranty period upon receipt of the software, postage paid, with proof of date of purchase, at its Factory Service Center.

This warranty is limited to the electronic circuitry and mechanical parts originally provided by SPECTRAVIDEO and is not applicable to normal wear and tear. This warranty shall be void if the purchaser has modified the software or has used it in any way not intended by SPECTRAVIDEO. SPECTRAVIDEO disclaims any liability for consequential damage resulting from possession, use or malfunction of this software.

Some states do not allow limitations on how long an implied warranty lasts and/or the exclusion or limitation of incidental or consequential damages so the above limitation and/or exclusion of limitation of liability may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
