Tips on Handling and Storage

1. Avoid touching the tape with your fingers; you may cause drop-outs or scratches.
2. Protect your cassette from dust and damage when not in use by keeping it in its protective plastic box.
3. The tape should be wound snugly on the cassette reels; if the tape is loose, carefully wind it on to one of the reels by gently turning one of the hubs.
4. Keep the recorder head and pinch roller clean by regular use of a good cassette head cleaner.

5. Avoid prolonged exposure of cassettes to excessive heat, sunlight and strong magnetic fields. Do not store near heating appliances, TV sets or similar equipment.

6. To preserve valuable or prized recordings, punch out and remove the erasure prevention tab on the top edge of the cassette.

337 Spectra Trader

Introduction

Here's a game for all you space adventures. Rome the galaxy as a interstellar trader -- buying and selling merchandise as you go. In "Trader" it takes a shrewd spaceage entrepreneur to keep this ship in fuel and avoid being stranded on some far away planet.

Hardware Requirements

1. SVI-318 or SVI-328 Computer
2. Data Cassette
3. One Joystick (Optional)

Getting Started

1. Hook up your computer to the TV or monitor and connect the data cassette as per the instructions in your User's Manual.

2. Turn all units on.

3. Insert tape. Rewind fully. Type:

cloud ENTER

Wait until the filename is **Found** and the "Ok" prompt appears.

4. Press **F5** to run the program. Refer to the instructions section for details.

In the Event of Difficulty

1. If the program is in progress, and the computer hangs up, hold down the **CTRL** key while pressing the **STOP** key. When the "Ok" prompt is displayed, press **F5** to run the game. If this fails to eliminate the problem try step 2.

2. Turn off all equipment and check all connecting cables.

Rewind tape and retry the procedures outlined in "Getting Started".

Instructions

1. Once loaded the program will display the title page and copyright credit.
2. The assets you owned are listed in the menu displayed on the screen. You only have \$500 and a starship with limited fuel. There are only 4 kinds of goods you can trade.
3. You are given 4 options to choose from. (See below)
 - buy goods : any of the 4 goods if you can afford it
 - sell goods: any goods in your possession
 - new planet: any of the 9 planets in the galaxy
 - other menu: only exist on earth for buying fuel, large starship, repaying loan, going to warehouse
4. You should buy goods at the cheapest price in the galaxy and sell it for the highest price you can get. The price will fluctuate from time to time and from planet to planet.
5. The limited fuel will restrain you from going too far away from earth. You must have enough fuel to return to earth before travelling to another planet or you will be stranded.
6. On the journey, you may be attacked by an unidentified spacecraft. If it is a star pirate, you must use the cursor control keys or a separate joystick to fight it. Hold the joystick forward will move the spacecraft downward. If the cross hairs are centered on the target, press **[SPACE BAR]** or the fire button to destroy it. Your cash will be increased if you salvage from the pirates remains.
7. If you run out of cash or fuel, the game will end. Press any key to play again.
