

WHEN IT COMES TO PERSONAL COMPUTER SPECTRAVIDEO™ IS BEYOND ANY COMPARE!

To the delight of our customers, and the dismay of our competitors, we now proudly present the most advanced, most capable personal computer system available today: SpectraVideo™'s SV-318 and SV-328. While the SV-318 is "everything home computer users were waiting for," the SV-328 is specially designed "for the small business that doesn't plan to stay that way." These 2 computers, too, are beyond any comparison in their price range.

And they do not stand alone. Seldom, if every, has a new computer been supported by so many peripherals. Of exceptional quality, all this hardware rides into you on the crest of the very last

technology.

Additionally — and importantly —

SpectraVideo™ is very software oriented. With built-in CP/M compatibility, the SV system allows you to take advantage of thousands of pre-existing programs. And with the MSX software compatible standard, jointly launched by SpectraVideo™ and most of Japan's largest electronics firms, SpectraVideo™ can take advantage of all software developed by other MSX participants. Plus, SpectraVideo™ is now producing its own line of top-quality software. Finally, the SV system includes several innovative and interesting accessories that you will want to use.

Because of product depth and ease-of-operation, the SV system will give you

full usage from the moment you unpack it. Yet it is both capable and expandable enough to give you long-term usage, too. That's why SpectraVideo™ is truly, "The computer system you'll grow into, not out of."

software compatible standard
